Welcome to the Z Code VIP Club!

I want to congratulate you on your decision to join the ELITE. The suite fits you well ;) In a moment you will experience sport predictions and picks that have been developed by the very best in the industry...

But first...
**A Word of Warning:**
Even if you have no clue about sports you can win with us! This money making Zcode system is very simple to apply, however you MUST read this manual **carefully**. We know you are eager to get going and make money right away but we need to minimize the beginners errors quickly. So please:

A.) **Read this manual carefully. All the way!** Then get grab yourself a cup of coffee and do the following:

**READ the whole manual AGAIN!** I am serious.. read it all over again and absorb the information.. Then:

B.) **Print the QUICK Reference Guide out!** It’s further down this manual and it includes everything you need to know for the system to work. Keep it handy and check it carefully before placing any bets!

*We wish you a ton of success!*

**Before you start however a word on MONEY MANAGEMENT.**

In combination with the ability to use winning predictions and picks, money management is one of the biggest factors that determines players final success or failure at the end of the season. Yet, money management is frequently overlooked, and by not exercising proper money management a player can wager on an overwhelming number of winning picks and still lose money. For truly successful wagering, both the ability to have winning picks and to exercise proper money management is essential.

**What does money management mean?**

The concept of proper money management can seem obscure to those without a disciplined money management strategy already in place, but basically, money management involves controlling where and how much of your bankroll you put at risk throughout the season on a weekly basis. The objective, of course, is to manage your betting in such a way that making a substantial profit is as easy and risk-free as possible. Of course, risk is unavoidable, and as a result, a proper money management strategy requires discipline and proper bet sizing to minimize risk, yet still make it easy to turn a decent profit.

This is crucial to your success in the handicapper business because an overall performance of over 65 % wins doesn’t necessarily mean you can walk away with huge gains... managing your bankroll properly is of ESSENCE... again

**Money Management and following the system Is Everything!**

---

**Determine Your Bet Size!**

Determining your bet size, you must choose an amount small enough to withstand a losing streak, yet large enough to make a sufficient return on your bankroll.

We usually advice new members to bet 1% fixed size each bet.
You can do it two ways:

a) Conservative approach: you risk 1% of your bankroll each bet

b) Aggressive approach: you risk to win 1% of your bankroll each bet. This means you will be laying more than 1% if the odd is low.

Use this standard bet size as the amount you wager on each pick during the season. As discussed above, don't change your bet size based upon the number picks that week or recalculate your bet size each week – it should remain fixed.

**Stick To The Plan.. and WIN!**

Again, great to see you here, now go and make some serious money.. Wishing us a tremendous money making year!

**Being a sports investor**

When investing in sports, it is very important to only follow the system CONSISTENTLY. As you can see, there is losing and there is winning in this process. No one or company can or will win every day of the week/month/year. That will not happen ever!

What is important to realize is that sports investing is a PROCESS. When we lose several games in a row or several days in a row, that is not the time to jump off or abandon what we are doing here. **Not Ever!** When you do that, you will miss the winners that go along with the losses. These winners are crucial to building our bankroll each month. You need to follow exactly what we do each day/week/month. You need to play out program the way it is meant to be played. If you do so you will see profit each month with the system and strategy that we have employed.

**We win!** This is Documented and proven!

Treat sports investing as a business, not as a gambling.
Again, investing needs to be treated as a **PROCESS**. Only after you profit each month do you increase your wager size. To beat the “book” is one of the hardest things to accomplish on a regular basis. When you find a successful program, such as the one we have created here at Z code system, it is vital you follow that program precisely if you want to truly profit and be a winner each month. When you go off on your own and play your own plays that do not have information behind them, or “cherry pick” other services’ plays here and there that is the worst thing you can do.

In closing, allow us to reiterate some crucial key points. Stay with our proven program we have laid out for you. You will profit long term! Do not get bogged down in day-to-day affairs. Do not get too high or too low during the month. Do not jump around and play random plays in which we do not endorse. Do not chase, do not double down, and do not bet more games unless we tell you to do so. We cannot **STRESS** enough that this is a **PROCESS**; you need to treat it as such.

Relax, we know what we are doing. This should be a stress free process for you. When you do not get bogged down in day-to-day outcomes sports investing becomes stress free and an enjoyable experience.

Let us worry about the day-to-day affairs. You just make your investments each day that we suggest for you. Collect at the end of each month. It’s that simple. There should be no emotion involved in this process for you. When you let emotion take over, that is when you will make bad decisions, and will lose your bankroll immediately. Follow the system, remove the emotion involved in day-to-day outcomes, and profit long term. Let’s have another profitable month!

**Proven since 1999**

Zcode is a fully transparent winning system proven since 1999. The betatesters have already backtested it all way back 12 years and now they are forward testing it publicly with great results.

Here is the link to download the full live NHL performance since October 2011:

+ $5,889 by betting fixed $100 bets so far!
This report is 100% real and untampered. We will update it regularly to show you why Z-code is the answer to make money consistently in the sports world, without any knowledge or any skills. You can use a mouse? You can do it! :) 

(again, this is not a backtest, this is actual verified performance)

Looks great? I bet it does. Now it’s time to show you how you can win with us.

We want to make you WIN and make cash together. Why? Because if you win - we win as well. We place all bets ourselves on our accounts as well.
So let’s get going, shall we?

**Step 1: Open bookie accounts**

Bookmaker or bookie for short is a place where you are doing your sports investing trades (bets).

You don’t need to open many accounts – you can start with just one or two of the best bookies.

Make sure that your bookie offers -1 spread lines bet for NHL (puck line). Here is the list of bookies that qualified and offer all necessary bet types we need to win:

- **5Dimes.com** (A+ world bookie, accepts US members) – Pros&Cons: offers all kinds of bets that we need however they usually get greedy and boost the “team totals” on NHL to 3 and even 3.5 instead of proper 2.5

- **Bet365** (One of the most popular bookies) Pros&Cons: offers good spreads even on underdogs but no team totals before the game though they offer them in-Play during the game!

- **Pinnacle** (World top bookie, best lines. Does not accept US players) does not have team totals and underdog-1 spreads

- **Bookmaker.EU** (A+ bookie, Accepts US members) offers team totals but no -1 spreads.

- **William Hill** (A+ bookie, does not accept US members) offers team totals but no -1 spreads

You don’t have to fund it with thousands, you can start as small as $100 betting $1 bets or $1,000 betting $10 bets

Remember, you can visit Zcode members area to watch the video tutorials!

**Step2: Follow ZCode predictions and hot trends**

While we were in public mode for months we have been publishing all our predictions and picks for free on facebook page: [http://www.facebook.com/ZcodeNHLpicks](http://www.facebook.com/ZcodeNHLpicks) so our betatesters could follow and verify the system.
Now, the system is private as we don’t want it to spread and lose effectiveness. It is only available to our VIP members and if you are reading this guide it means you are one of them 😊

Every day in Zcode members area in the “VIP PICKS” tab you can find predictions like this one:

If you are not into sports this might look complicated but let it not scare you away otherwise you will miss all the profits our members get!

**Here is how to use these predictions to win.**

We **only** bet 2 trends on NHL for now:

1. **4-5 Star Home Game Winners** (Favorites) by Moneyline (means to win), -1 spread line (means to win by 2 goals or more) and Team Total Over 2.5. Additional possible bet is TTOU2.5 which means “opponent team total under 2.5”

   ![Graph](image)

   *(Results since October 2011) +3,020*

2. **5 Star Road Underdogs** by Moneyline (underdog is a team with higher odds here playing away from home, on the road) and **Team Total over 2.5** and -1 spread. Additional possible bet is TTOU2.5 which means “opponent team total under 2.5”

   ![Graph](image)

   *(Results since October 2011) +3,210*
That’s all we need to win for now. We are very selective; usually we have 1-2 bets per day or less. Do not bet any other predictions or recommendations such as Game Totals (Over/Under) etc.

Let’s concentrate on those trends that bring the most profit, right!

**Important!** We publish also other bets (2-3 star bets!) Do NOT Bet those! They are just for professionals to discuss about! They are not part of the money making system.. only the 4-5 star bets are!

The recommended bet size is 1% of your bankroll per bet, but if your 1% is $1,000, maybe that’s too much, especially if you’re new to ZCode system?

The important thing is to be consistent. Whether you decide on 1% or $200 or $1 per bet, just stick to that size for a while.

If you vary your bet size from day to day, you might be unlucky enough to win small one day and lose big another.

### Early and Final Predictions (Locks)

**Early Prediction.** The early predictions are a long term game forecast.

You have it ready long time before the game but it is less accurate because something can happen later: key player illness or injury, goaler/pitcher change, odd change etc that can influence the prediction.

**The Final Prediction** is ready 3 hours before the game and does not change anymore.

In 95% cases the Early and Final predictions are the same.

The early prediction is updated automatically every 2 hours as the new information arrives. The final prediction does not update anymore and is locked.

### Statues and Stars explained

- **Orange Stars 🌟🌟🌟🌟** are for favorites (teams that have lower odds according to bookies). By betting on favorites you have higher chance to win but the reward is smaller.

- **Yellow Stars 🌟🌟🌟** are for underdogs (teams with odd higher than 2.0 or +100 in American. This means lower chance to win buy higher reward)
• **Green Stars 🟢🟢🟢🟢 (Game Totals, for experts only).** Zcode can be a great helper here for you but you can’t bet Totals blindly by stars, they require additional goalie and team strategy analysis. Usually teams with strong offense and good goalie tend to go Under 5.5 in NHL. You can find discussions under each game to see what experts think.

• **Team Statuses 🌐 (Dead – IceCold – Average – BurningHot) show the current status of the team (Team condition).** The higher status differential the better for prediction.

• **Status Trends 🌐 (IceCold Down etc) show the direction the status is headed to.** Obviously the “down” status is a bad sign while “Up” means the team is improving.

• **Power rank 🌐 shows the current team strength where 1st is the best rank and 30th is the weakest one.**

• **Prediction Bar 🌐 shows the zcode ® simulation for the current game – the chances of the teams to win outright.** The high chance to win does not necessarily means we are going to bet on it because we also need to see the status, star amount and other factors. For underdogs we make a bet even if chance to win is less than 50% because the reward is great!

• **Point spread forecast 🌐 shows the chance for the weak team (underdog) to cover the +1.5 spread.** Usually +1.5 chance is very high but the odd is very low which is only good for parlays.

• **Prediction hot trends 🌐 shows how Zcode predicted the last games and other useful information and supportive trends.**

• **Recommendation & odds 🌐 shows the possible bet ideas.** Zcode gives you a big variety of ideas but if you are new to sports investing you don’t have to bet ALL of them, just choose the ones that fit the hot trends we discuss in this guide later.
• Bookie odd: approximate bookie odd for the team in Decimal international format. Please remember we are not a bookmaker so the real odd in your bookie could differ little bit from the odd we posted, this does not matter at all because it’s not arbing and the difference in odds do not matter. If your bookie offers American format like +120 you can always switch to decimal for easier understanding. Remember the higher odd the better reward is but the less chance to win it.

• After you place the bet in the bookie, click it to hide the prediction from the list to help you remember that you already placed it.

Now let me give you examples and explain it:

NHL HOME WINNERS TREND

4-5 Star Home Game Winners (Favorites) by moneyline, -1 spread line and Team Total over 2.5. Additional possible bet is TTOU2.5 which means “opponent team team total under 2.5”

Find predictions where home favorite has 4 or 5 stars and the system gives you recommendation like Nashville Moneyline (1.47) or Good opportunity for -1 or -1.5 Spread Bet on Nashville

Orange stars: ★★★★★

As you can see Nashville got 5 star, it’s a home team (Home teams are always listed second) and it has the necessary recommendation.

Now lets place the bet. We are placing NHL bets called “Overtime and Shootout Included”.
What amount to bet – if you are new to the system then bet a fixed 1% of your bankroll per bet! If you are a pro sports investor I have prepared a long boring article on money management in the beginning of the guide ;)

So our bet would be:

1 unit Nashville Moneline

1 unit Nashville -1 Spread (Spread -1 offer usually appears in the evening before the game)

1 unit Nashville Team Total Over 2.5

1 unit Columbus Team Total Under 2.5 (additional bet)

Note: If you bookie does not offer team totals you can switch to 5Dimes, William Hill or Bookmaker.EU or simply ignore team totals. Beware of bookies boosting team totals to 3.5 – avoid such bet.

Video Tutorials

You can visit Zcode members area to watch the video tutorials!

5Dimes example

Here is how to do it in 5Dimes.com:

Go to Bet-The-Board and click NHL and Continue
Now find our game and place 3 bets, similar size on

- Nashville Moneyline (Moneyline means you bet on win of Nashville)
- Nashville -1 Spreadline (Also called puckline. It wins if Nashville wins the game by 2 or more goals like 2-4, 3-5 etc. In case Nashville wins by 1 goal you will get a Push (bet refund). It is really profitable and safe bet. Don’t use -1.5, only -1 !
- Nashville Team Total over 2.5 (we expect them to score 3 goals or more)

(I marked the correct bets in yellow. Since the game in question was already finished by the time I am writing this guide I took the screenshot from similar game, that’s why teams are different 😊)

**Bet365 Example**

Here is the screenshot of NHL moneyline and -1 Puckline from [Bet365](https://www.bet365.com) Please note they don’t offer Team Totals, however you can place additional small bet Nashville-2 spread instead
Pinnacle Example

Now example from Pinnacle Please note they don’t offer Team Totals.

Choose NHL OT included

(info: Pinnacle will show a note that says “OT games are not supported from now on” but they still are so disregard that note)

Then find the game, choose -1 Handicap (Spread) and place the amounts. Please note -1 spread usually appears in the evening before the games:
Bookmaker.EU example

Bookmaker.EU offers great team totals but no -1 spreads, only -1.5. With -1.5 you get more losses but better odds so long term result will be similar.

Find NHL, Select Team Totals, NHL and click Continue to step 2:

Now find the game in question (I have chosen a random game for example), place a bet on Moneyline (Column called Odds), Spread line -1.5 (they don’t have -1)

Then scroll and find team total:

Now click continue to step 3 and enter amounts there to place the bets!
William Hill example

William Hill offers a great variety of NHL bets including one of the best choices for Team Totals however does not offer -1 bets.

First find the game in question and click on +32 bets to see whole market. Additional bets like team totals appear in the evening!

Now place the bets on Moneyline and -1.5 spread and enter the amounts in the betting slip on the right:

Finally scroll down and find Goal Market and Team Total for the home team:

Place the bets and you are all set.
NHL Underdog Trend

The second trend we are betting is:

5 Star Road Underdogs by Moneyline (underdog is a team with higher odds here playing away from home, on the road), Team Total over 2.5 and -1 Spread. Additional possible bet is TTOU2.5 which means “opponent team team total under 2.5”

Find the predictions where away (road) team has 5 stars. Road team is always listed first!

Yellow stars:

It usually says “Good underdog value pick (5 Stars) on Ottawa” or “Value bet: Hot underdog team Ottawa” in the recommendation.

Now find your team in the bookie and bet on its Moneyline (means to win), -1 spread and Team total over 2.5. Please note some bookies like Pinnacle don’t offer Underdog-1 spread bets (it is offered only by 5Dimes and Bet365) while others don’t offer Team totals. The best bookie that offers everything is 5Dimes.com

Sample with unit sizes:

5 Start Dogs:

1 unit Ottawa Senators ML

1 unit Ottawa Senators -1 Spread (some bookies don’t offer -1 on dogs)

1 unit Ottawa Senators Team Total Over 2.5

1 unit Kings Team Total under 2.5 (optional)

That’s all!
• The place to get your picks → [http://zcodesystem.com/vipclub/picks.php](http://zcodesystem.com/vipclub/picks.php) Bookmark it!

• Moneyline means “bet to win the game” In short often referenced as ML

• Spread/ Puckline / Handicap -1 means “to win by 2 or more goals. If win by 1 goal you get a Push (refund of the bet) Thats part of the system to preserve your money :)

• Don’t bet -1.5. Always use -1 instead. It is a much safer bet because of the Push in case your team wins by only 1 goal. All qualified bookies offer -1 bet few hours before the game (not in the morning) Those bets usually “show up” later during the day so be patient!

• Away team is listed first, Home team is listed second

• Bet 1% of your bankroll per bet. For example for $1000 bet $10 bets, fixed size

• **Odds may change through the day.** That is normal. Sometimes underdog can become a favorite.

• Better to place bets few hours before the game when the situation is clear. (Final prediction)

• Besides NHL we also offer NFL (starts September), MLB (starts in April), NBA (starts soon)

• Do not bet other types of bets (Game Totals Over/under, +1.5, parlays, bets with lower amount of stars and bets for road favorites and home underdogs). Those additional types of bets are posted for experts only, you don’t need them for now!

• Do not expect to win every single day. We are doing a sports investing system with a long term profit, not a one day *get-rich scam*. You will not become millionaire overnight with it and you will have losing days and weeks. That is normal. Always see the BIG picture and remember that sports investing is a **PROCESS**! Remember, our system is a proven winner in a long run!

• Bet only 4 to 5 star Bets! Ignore the other bets unless you are “fun” Betting!

• “Final prediction” is fixed 3 hours before the game time and does not change anymore.
See the big picture:

That’s all for now! Follow the system and win!

Z Code Tools to help you here with money management for system games

Sometimes you see recommendations like "Possible System play on Team X". This is the most popular bet type in MLB. It’s not used much in other sports. What does it mean?

During the last 12 years we’ve developed several successful systems based on the money management. This means it is pure math, no guesswork. In such system our goal is to win by units not by odds.

For example in a 3 series game we can lose 2 times and still be in profit when you finish the series!
We don’t just stupidly double the unit size like in martingale like other capers do. This is too risky for the bankroll! Never do that. We use different progressions such as positive progressions, Labouchère system etc to keep us in profit no matter what outcome is! That’s why it is important that you follow the units when we state every "system" game! Never bet fixed units on the system games!

Place system games like normal fixed stakes - just follow the units plan carefully! This way even if you lose 2 out of 3 games you are still in profit in most cases!

Use System Calculator if you are betting on the system progressions based on our predictions:

![System Plays Points Calculator](image)

**Fun bets**

Fun bets are not advised for newbies but it’s a nice way to build your bankroll with no stress if you follow the sport yourself. Z code will be a nice helper here for you!

Fun bets usually include:

a) **Bets on predictions with stars less than 4.** Such games require you to perform additional analysis. You should pay very close attention to the starting goalies in NHL. You can find the starting goalies here: [http://goaliepost.com/](http://goaliepost.com/)

b) **Game totals.** (Green stars). Zcode can be a great helper here for you but you can’t bet Totals blindly by stars, they require additional goalie and team strategy analysis. Usually teams with strong offense and good goalie tend to go Under 5.5 in NHL. You can find discussions under each game to see what experts think.

c) **Parlays** – you can parlay low profit safe bets like +1.5 or Under 6 or Over 4.5 when advised.

d) **Goal Salami** (NHL) When the number of games is low (4-6 games) and most teams are favorites at home you can play a fun bet called Home Goals Salami expecting home teams to win by the sum goal amount.

e) **Hedging bets.** When you lay big money on strong favorites it’s always good to hedge your bet with a small bet on underdog parlayed with something else so the possible upset does not hurt you too much.
Additional useful bonus tools by Zcode:

   ZCode NHL Team Strength Oscillator shows you the current team shape in a form of an easy chart. Just by looking at the chart you can compare two teams to see each team's pattern and current trend, which team is surging, which is slumping. You will also get the current team status, their last games and the difference (delta) between their conditions. The Oscillator is calculated based on the bookie odds for the closed game.

   One of the great features of Zcode system will be automatically updated daily power rankings for NHL and weekly for NFL. They show the real condition and shape of the teams based on the internal system indicators. You can compare how they differ from the traditional Standings (Place in Ratings) that you can find on public websites like Covers or NHL.com that are usually updated weekly and become outdated too fast.

   The value of such table is huge for the professional bettor because it shows you the real **CURRENT** power of the team, not the traditional "general" power shown by public standings tables. Let me give you example. Team A won a lot of games in October and stays on top of the division with the big amount of points, however it lost 7 out of last 10 games. The traditional standings tables will still show a high position for the team that has collapsed and currently not playing well at all giving you fake indications of the strength!

   Of course power rankings is not the only thing that matters but it is one of the most important indicators of the team current state and power.
Ideas to maximize your profit (FOR EXPERTS ONLY)

- When the odd is too low (for example on home favorites like Boston playing against super weak last place team) you can risk more by putting bet on “win in regulation” instead of “moneyline including OT”. Usually the odd is better. Some bookies like bet365 also offer Spread-2 Bet for such games for maximizing profit.

- On some bookies like 5Dimes you can bet super profitable bet like “underdog-1” spread. Use it for 5 star dogs to maximize the profit.

- When your strong team is known to score a lot and a weak one has poor defense and goalie use Team Total Over 2.5 to maximize the profit.

- When the odd is super low and you think “things are too good to be true” and expect an upset you can place a hedging parlay on the underdog moneyline parlayed with something else.

- Parlay “5 star underdog” on +1.5 spread with something else – it has very high winning rate.
